

Sacred Circle Dance Workshop with June Watts Calgary Alberta, July 12-14, 2019

“Mother Earth, Father Sun”

Like a dam bursting its banks, Feminine energy is flooding the planet. Our bodies are made of elements of Earth Mother, and Sun Father empowers us with energy. This weekend we dance their different energies - strong and directed, gently flowing, invigorating and exciting. We dance to take the Feminine flood at its height but also to honour the clear, strong, direct energy of the Masculine. Through the dances we explore both the receptivity, flow and heart centredness of the Feminine and the true power of the Masculine to hold and protect. We dance to restore the balance between the two on the earth and move collectively into a new vibration of love. June Watts
