“DANCING THROUGH CHANGE”

“It seems that the only constant in life is 'change'. The Dance helps us move through changes. As we move from one dance to the next, one style of movement to the next, one rhythm to another, changing direction from right to left, in and out, moving from a gentle contemplative mood to upbeat high energy, to deep soul food, to childlike fun, we are learning how to flow through the changes in life gracefully and smoothly while always holding the still, steadfast centre both within the circle and within ourselves.” June Watts
