

'Centred and Circling'

with June Watts

A long Easter weekend of exhilarating dancing.

Monkton Wyld Court, Dorset
Friday 10th - Monday 13th
April 2020

Inner and outer, me and us! I am an individual being, I am also a cell of the bigger being of the circle. I am centred within myself and I am also moving around through life. Dancing with awareness in a circle widens our lens, lifting focus on the details of everyday life into a wider perspective. I expand and become the Circle.

"When I dance I know who I am! I feel Centred and Connected with All things." June
